Convedo	Intelligent Capture Cloud	Problem Solving	✔	TAP Premier	The Intelligent Capture Cloud is an innovation developed by convedo exclusively with IRIS optical character recognition technology. This is a powerful solution to organisations that have the heavy burden of relying on paper struggling to go digital.	1. Reduce operational costs by increasing reliability and quality; the addition of AI functionality improves data extraction. Eliminate the heavy expense of installing, maintaining and upgrading on-premise IT infrastructure by moving to a SaaS subscription model. 2. Scale faster and easier by addressing changing needs as your organisation grows. For example, when it's time to increase bandwidth for managing unstructured data, rather than investing in additional in-house server capacity and software licenses, simply adjust your monthly SaaS subscription. 4. Connect to the Intelligent Capture Cloud Instantly. A secure internet connection is all that's required for the Blue Prism Digital Worker to access Intelligent Capture Cloud.	https://digitalexchange.blueprism.com/dw/entry/8667/solution/intelligent-capture-cloud	http://www.convedo.com	5/15/2019
