

Blue Prism Digital Exchange Newly Submitted Assets

May 2019

Light green: Assets coming soon

| Company Name | Asset Name | Skills | Published on Blue Prism Digital Exchange | TAP Level | Feature Description Facts | Business Benefit | Digital Exchange Landing Page Link | Helpful Partner URLs | Publication Date |
|--------------|---|---------------------|--|---------------|---|---|---|---|------------------|
| XpertRule | Human-Robot Conversations | Collaboration | ✓ | TAP Affiliate | Hold dynamic conversations with customers and human co-workers to troubleshoot, capture missing data and get a complex decision to avoid breakpoints in your automated processes. | The overall business benefit of using AI Powered Decisions is a significant increase in the amount of work that can be successfully automated and a key enabler for full end-to-end process automation. | https://digitalexchange.blueprism.com/entry/3359/solution/human-robot-conversations | https://xpertule.com/contact | 7/5/2019 |
| XpertRule | AI Powered Decisions | Problem Solving | ✓ | TAP Affiliate | Build self-learning models fueled by human expertise and AI to give your digital workforce the power of business decision making. This enables you to automate more complex and dynamic business processes without bringing humans into the loop. | The overall business benefit of using AI Powered Decisions is a significant increase in the amount of work that can be successfully automated and a key enabler for full end-to-end process automation. | https://digitalexchange.blueprism.com/entry/3359/solution/ai-powered-decisions | https://xpertule.com/contact | 7/5/2019 |
| Blue Prism | Sharepoint ACS Based Authentication | Collaboration | ✓ | | Easily authenticate with SharePoint using Microsoft Access Control Service through ClientID / Secret. Most easy way to authenticate Sharepoint with very simple steps and fully manageable by a Sharepoint Site admin without any other IT involvement. | Simplest method of authentication with Sharepoint | https://digitalexchange.blueprism.com/entry/3439/solution/sharepoint-acs-based-authentication | | 7/3/2019 |
| Blue Prism | Sharepoint List Library Skill | Collaboration | ✓ | | Easily connect and work with SharePoint Lists. Easily execute actions: Get list items, search list, create item, delete item, get item details, get attachment, attach item. | Integrate and collaborate with Sharepoint and internal applications directly | https://digitalexchange.blueprism.com/entry/3439/solution/sharepoint-list-library-skill | | 7/3/2019 |
| Blue Prism | Azure AD Authentication Certificate Based | Collaboration | ✓ | | This authentication skill can be used to generate tokens that allow interaction with almost all Azure assets and Microsoft Online assets like O365. | Secure authentication with Azure AD | https://digitalexchange.blueprism.com/entry/3439/solution/azure-ad-auth-certificate-based | | 7/3/2019 |
| Enate | Enate Connector | Learning | ✓ | | The integrated solution will help customers to easily connect to Enate within Blue Prism Process Studio using a code-free 'drag and drop' interface. | The Blue Prism/Enate integration gives enterprises easy access to "drag-and-drop" activities for instant connection to Enate's Service Orchestration platform – all while building a digital worker's workflow within Blue Prism. | https://digitalexchange.blueprism.com/entry/3617/solution/enate-connector | https://forum.enate.com/unity/connector | 7/3/2019 |
| Smartlogic | Smartlogic Semaphore Classifier VBO | Knowledge & Insight | ✓ | TAP Affiliate | The Smartlogic Semaphore Classifier Visual Business Object allows Blue Prism users to access a Semaphore Classification Server Instance in order to add structured metadata to the data they are processing. | Semantically enriches enterprise information with context and meaning in the RPA process to both structured and unstructured data | https://digitalexchange.blueprism.com/entry/2793/solution/smartlogic-semantic-classifier | https://www.smartlogic.com/about/smartlogic-support | 7/2/2019 |

| | | | | | | | | | |
|----------------------------------|-----------------------------------|-----------------------|---|---------------|---|---|---|---|-----------|
| Tabscanner | Tabscanner – Receipt OCR | Visual Perception | ✓ | | Tabscanner allows Blue Prism developers to easily convert receipt images into classified JSON formatted data | Allows automatic scanning of receipts removing the need for data entry which can assist in the automation of expenses claims and eliminate human error. | https://digitalexchange.blueprism.com/entry/2412/solution/tabscanner-receipt-ocr-2 | http://tabscanner.com | 7/2/2019 |
| RPA Supervisor | RPA Supervisor | Planning & Sequencing | ✓ | TAP Affiliate | The RPA Supervisor manages your digital workforce for you. It acts as an automated controller that drastically optimizes your RPA resources with advanced algorithms and event handling capabilities | Controllers also report that they are free from having to check on the digital workforce outside of business hours. The RPA Supervisor takes care of business and notify you if human action is required. | https://digitalexchange.blueprism.com/entry/2417/solution/rpa-supervisor-4 | https://www.rpasupervisor.com | 6/13/2019 |
| Ren Roros Intelligent Automation | Elis Document Data Extraction | Visual Perception | ✓ | | Instant invoice automation – Boost Blue Prism with AI-powered invoice data capture | -AI-powered data capture from invoices Accelerate the implementation of invoice automation No templates or business rules to set up 98% keystroke reduction, 6x faster invoice processing | https://digitalexchange.blueprism.com/entry/2487/solution/elis-document-data-extraction | http://www.rri.io | 5/22/2019 |
| CognitiveScale | CognitiveScale Process Insights | Knowledge & Insight | ✓ | TAP Affiliate | CognitiveScale's Process Insights improves the effectiveness and efficiency of business processes at the very core. The Process Insights Agent provides unique insights to the process operator (human-in-the-loop) to reduce their time to remediate a process exception. It brings the power of CognitiveScale's Profile-of-One combined with skills such as OCR with bounding box, Image Segmentation, Object Detection, Document Classification, Intent Classification, and Entity Extraction amongst others. | As unstructured data specialists, CognitiveScale's Process Insights Agent focuses on Intelligent Document Processes – applying OCR, Machine Learning, Natural Language Processing (NLP), Natural Language Understanding (NLU), Image Segmentation and Text Analytics technologies to identify and classify content and extract data – all while continuously learning from human input. | https://digitalexchange.blueprism.com/entry/2456/solution/cognitivescale-process-insights | https://www.cognitivescale.com/ | 5/17/2019 |
| Kore.ai | Kore.ai Conversational Automation | Collaboration | ✓ | TAP Affiliate | This Datasheet provides details about the integration of Kore.ai and Blue Prism with the Connector, including what it does and how it works. | By extending a robot to conversational engagement, the person can have immediate answers and execution of tasks – leveraging and extending robots you already have...and opening a whole new domain of robots that can support the End User without the need for intervention. | https://digitalexchange.blueprism.com/entry/2463/solution/koreai-conversational-automation | https://info.kore.ai/blue-prism-convergence-of-conversational-bots-and-process-automation | 5/17/2019 |
| Convedo | Intelligent Capture Cloud | Problem Solving | ✓ | TAP Premier | The Intelligent Capture Cloud is an innovation developed by Convedo exclusively with IRS optical character recognition technology. This is a powerful solution to organizations that have the heavy burden of relying on paper struggling to go digital. | 1. Reduce operational costs by increasing reliability and quality; the addition of AI functionality improves data extraction. Eliminate the heavy expense of installing, maintaining and upgrading on-premise IT infrastructure by moving to a SaaS subscription model. 2. Scale faster and easier by addressing changing needs as your organization grows. For example, when it's time to increase bandwidth for managing unstructured data, rather than investing in additional in-house server capacity and software licenses, simply adjust your monthly SaaS subscription. 4. Connect to the Intelligent Capture Cloud instantly. A secure internet connection is all that's required for the Blue Prism Digital Worker to access Intelligent Capture Cloud. | https://digitalexchange.blueprism.com/entry/2467/solution/intelligent-capture-cloud | http://www.convedo.com | 5/15/2019 |
| Princeton Blue | Automated Customer Service | | ✓ | | Transform your customer service experience with intelligent automation powered by Appian BPM, low-code, AI and case Management platform, Blue Prism RPA and Amazon Alexa. | AI to understand the customer sentiment Blue Prism RPA to automate routine tasks like reading emails, fetching customer data from CRM End-to-end customer service process automation with Appian BPM AIaaS for natural language common customer service requests Appian Low-code development platform for a rich, modern and mobile-enabled customer experience. Dashboards and reports for real-time visibility into Customer Service operations | https://digitalexchange.blueprism.com/entry/2412/solution/automated-customer-service | https://princetonblue.com/appian-robotics/automated-customer-service | 5/14/2019 |
| Princeton Blue | Automated Label Management | | ✓ | | Princeton Blue's Automated Label Management solution leverages Blue Prism Robotic Process Automation platform combined with Appian's process orchestration and exception handling capabilities of BPM to automate Label Management from end-to-end. | -Automated Workflow BPM process for Label Change Request SharePoint Integration Blue Prism digital workers performing search and download of documents Automated Document Ingestion Automated reading of regulatory pdf documents Excel Data Entry Data entry into an Excel spreadsheet using Blue Prism RPA Analysis Dashboards Visibility into process execution with dashboards and reports Seamless Integration Blue Prism digital workers integrated with Appian Business | https://digitalexchange.blueprism.com/entry/2412/solution/automated-label-management | https://princetonblue.com/blue-prism-robotics/automated-label-management | 5/14/2019 |

| | | | | | | | | | |
|------------------------|----------------------------------|---------------------|---|-------------|--|---|---|---|-----------|
| Blue Prism | USPS Web Tools API | | ✓ | | This asset wraps several methods from the USPS Web Tools Address Validation API. Specifically, it supports ZIP Code Lookup, City/State Lookup, and Address Validation. | This asset can be used to correct errors in street addresses, including abbreviations and missing information. It can also supply the associated ZIP+4 code for an address or base 5 digit ZIP Code. | https://digitalexchange.blueprism.com/entry/3439/solution/usps-web-tools-api | | 4/11/2019 |
| Bue Prism | Baidu OCR Skill | Visual Perception | ✓ | | Baidu OCR is the first public cloud-based OCR product in China. Developed on Baidu's deep learning algorithm and Chinese OCR technology, it supports a wide variety of generic OCR, pre-built template-based OCR and custom template OCR capabilities, with the accuracy up to 85% for Chinese text recognition, and 91% for English text recognition. | Baidu OCR supports the accurate OCR covering the most commonly used scenarios. Leveraging Baidu's AI engine, it supports a wide range of OCR applications that are optimized for the China market. | https://digitalexchange.blueprism.com/entry/3439/solution/baidu-ocr-skill | | 4/4/2019 |
| ABBYY | ABBYY Vantage for Blue Prism | Visual Perception | ✓ | TAP Premier | ABBYY Vantage is a next generation Content IQ platform for the enterprise that provides the skills required to understand and create meaning from content by turning unstructured content into structured, actionable information. Vantage helps organizations accelerate their digital transformation by complementing Blue Prism with new and advanced cognitive skills to perform like humans. | Turns unstructured content into structured information using vision and machine learning technology—all the while learning and improving over time. Vantage makes digital workers smarter with new and emerging business skills, doing the work that humans would otherwise perform. Vantage minimizes the complexity of technologies like OCR and machine learning, and makes it easy to setup and configure your document centric processes within the Blue Prism Process Studio. | https://digitalexchange.blueprism.com/entry/3470/solution/abby-vantage-for-blue-prism | https://www.abby.com/en-us/vantage/ | 4/2/2019 |
| Symphony | JSON Manipulation (Custom CI) | Problem Solving | ✓ | | The Symphony Ventures - JSON Manipulation (Custom CI) object adapts the Blue Prism utility, Utility Andash; JSON, and includes the conversion actions between JSON text and collection data items. The object was developed for the purpose of manipulating larger datasets more efficiently, interacting with the data contained in the JSON array directly without the need of converting to a collection first. | Enhanced Functionality API Integration Simplify Manipulation of Large Datasets Memory and Speed Efficiency | https://digitalexchange.blueprism.com/entry/7288/solution/json-manipulations | http://www.symphony.com/ | 4/2/2019 |
| Appian | Appian Skill | Collaboration | ✓ | TAP Premier | Easily connect to Appian from Blue Prism using the new Appian Skill | Automate Human-in-the-loop Tasks Monitor Digital Workforce Operations Empower Business Users to Own, Create, Manage and Change Complex Business Logic Build Modern User Interfaces (Web and Mobile) to Support Robotic Processes Achieve Greater End-to-end Automation | https://digitalexchange.blueprism.com/entry/3147/solution/appian-skill | https://www.appian.com/ | 3/28/2019 |
| Blue Prism | Object Inventory | | ✓ | | This asset is a business object that uses the output from the BP command line/getobjid function to create a list of all business objects, pages, descriptions, inputs and outputs. Raw data can be extracted as a collection, or a report can be created. | This asset enables the user to create an offline inventory of all business objects. This will be particularly useful to solution designers and the Design Authority for finding re-usable objects. It will also be useful for checking developers have kept to the design schema as instructed, and that objects are properly documented. The ability to list objects and actions will a+H13+H14 | https://digitalexchange.blueprism.com/entry/3439/solution/object-inventory | | 3/18/2019 |
| DX Community Developed | Companies House (UK Government) | Knowledge & Insight | ✓ | | Retrieve information from the UK government's Companies House database. Information such as company addresses, company officers, official filings and insolvency status. | Retrieve information from the UK government's Companies House database. Information such as company addresses, company officers, official filings and insolvency status. | https://digitalexchange.blueprism.com/entry/3439/solution/companies-house-uk-government | | 3/15/2019 |
| DX Community Developed | SMS Messaging Integration Twilio | Collaboration | ✓ | | Send and receive sms text messages and mms picture messages directly from your Blue Prism process. This skill can enable two way communication between Blue Prism solutions and humans, allowing for true human-in-the-loop processing. | Send/Receive Text Messages | https://digitalexchange.blueprism.com/entry/3439/solution/best-practices-sms-messaging-integration | | 2/26/2019 |

| | | | | | | | | | |
|------------------------|-----------------------------------|-----------------------|---|---------------|--|---|---|---|-----------|
| DX Community Developed | Generate Blue Prism Access Report | Knowledge & Insight | ✓ | | Create a report detailing all of the users in your Blue Prism environment and which permissions those users have. This information is displayed in a way which is easy to digest and manipulate. Great for audit purposes. | Easier Blue Prism Audit | https://digitalexchange.blueprism.com/entry/3439/solution/generate-blue-prism-access-report | | 2/2/2019 |
| K2 | K2 and BluePrism Integration | | ✓ | TAP Affiliate | Delivering the Most Advanced Approach to Digital Process Automation through K2 and Blue Prism | Accelerate digital transformation. Build and deploy process applications rapidly to streamline business efficiency. | https://digitalexchange.blueprism.com/entry/6596/solution/k2-and-blueprism-integration | https://help.k2.com/Ab002333 | 2/1/2019 |
| DX Community Developed | Barcode Generator Utility | Planning & Sequencing | ✓ | | Generate several types of barcodes. 1 dimensional barcodes (c39, c128a, c128b, c128c) and 2 dimensional QR barcodes. | Create 1 dimensional barcodes | https://digitalexchange.blueprism.com/entry/3439/solution/antilly-barcode-generator | | 2/20/2019 |
| TimelinePI | Digital Worker Process Monitoring | Problem Solving | ✓ | TAP Affiliate | Ability to monitor and quantify process execution in real-time also allows you to accurately assess and validate the return on investment for any optimization or automation initiative. | Maintain 100% audit logs for the "As Is" process ensuring proper functionality; Sustain process expectations and process excellence over time | https://digitalexchange.blueprism.com/entry/3439/solution/digital-worker-process-monitoring | https://timelinepi.com/partner/blueprism/ | 2/15/2019 |
| TimelinePI | Intelligent Process Mining | Knowledge & Insight | ✓ | TAP Affiliate | TimelinePI: Raise Your Process IQ with Actionable Insight; Critical insights to accelerate your digital transformation | Automatically expose 100% of process execution. Ensure continuous improvement. Monitor your processes in near real time. | https://digitalexchange.blueprism.com/entry/3432/solution/intelligent-process-mining | https://timelinepi.com/partner/blueprism/ | 2/15/2019 |
| Blue Prism | PDF Text Extraction Google Cloud | Visual Perception | ✓ | | The Blue Prism/Google integration gives enterprises a certified reference architecture for Google Cloud, as well as easy access to drag-and-drop artificial intelligence for instant connection to Google Intelligent Services so that enterprises can select and configure any of Google's supported services all while building a process within Blue Prism. | PDF Document Text Detection | https://digitalexchange.blueprism.com/entry/3439/solution/google-cloud-service-pdfiff-tes | | 2/15/2019 |
| TimelinePI | Advanced Process Query / Search | Knowledge & Insight | ✓ | TAP Affiliate | Unlock value by creating an interactive process model that reflects 100% of your actual process execution. | No integration! No Code! Fast Results! | https://digitalexchange.blueprism.com/entry/3432/solution/advanced-process-query-search | https://timelinepi.com/partner/blueprism/ | 2/14/2019 |
| Bizagi | Bizagi Integration | Collaboration | ✓ | TAP Premier | Integrate Blue Prism with Bizagi to use your business processes directly from Blue Prism. | Develop and adapt business models to support new technologies like RPA. | https://digitalexchange.blueprism.com/entry/6547/solution/bizagi-integration | https://www.bizagi.com | 2/12/2019 |

| | | | | | | | | | |
|----------------|------------------------------------|---------------------|---|---------------|--|--|---|---|-----------|
| Blue Prism | Comprehend Capability AWS Cloud | | ✓ | | Amazon Comprehend is a natural language processing (NLP) service that uses machine learning to discover insights from text. Amazon Comprehend provides Keyphrase Extraction, Sentiment Analysis, Entity Recognition, Topic Modeling, and Language Detection APIs so you can easily integrate natural language processing into your applications. You simply call the Amazon Comprehend APIs in your application and provide the location of the source document or text. The APIs will output entities, key phrases, sentiment, and language in a JSON format, which you can use in your application. | Amazon Comprehend is a natural language processing (NLP) service that uses machine learning to find insights and relationships in text. No machine learning experience required. | https://digitalexchange.blueprism.com/en/entry/3439/solution/amazon-comprehend-by-blue-prism | | 2/7/2019 |
| Blue Prism | Rekognition Capability AWS Cloud | | ✓ | | Rekognition Image is a deep learning powered image recognition service that detects objects, scenes, and faces; extracts text; recognizes celebrities; and identifies inappropriate content in images. It also allows you to search and compare faces. Rekognition Image is based on the same proven, highly scalable, deep learning technology developed by Amazon's computer vision scientists to analyze billions of images daily for Prime Photos. The service returns a confidence score for everything it identifies so that you can make informed decisions about how you want to use the results. In addition, all detected faces are returned with bounding box coordinates, which is a rectangular frame that fully encompasses the face that can be used to locate the position of the face in the image. | Amazon Rekognition makes it easy to add image analysis to your applications. | https://digitalexchange.blueprism.com/en/entry/3439/solution/amazon-rekognition-by-blue-prism | | 2/7/2019 |
| Signavio | Signavio Dictionary Integration | Knowledge & Insight | ✓ | TAP Affiliate | Signavio Dictionary integration allows you to create or update a Signavio Dictionary entry from within a Blue Prism process. | Automatically register Blue Prism processes with the Signavio Business Transformation Suite | https://digitalexchange.blueprism.com/en/entry/5914/solution/signavio-dictionary-integration | https://www.signavio.com/ | 1/29/2019 |
| Reveal Group | Platform Migration Assessment Tool | Knowledge & Insight | ✓ | | To help you adequately plan your platform upgrade and migration path, our industry-leading Platform Architecture Design team have created the Blue Prism v6 Platform Migration Assessment Tool exclusively created by Reveal Group. | Ready to upgrade and migrate? Assess your platform first. | https://digitalexchange.blueprism.com/en/entry/7198/solution/revealplatform-migration-assessment-tool | https://revealgroup.com/revealplatform-migration-assessment-tool/ | 1/16/2019 |
| Blue Prism | API and VBO for Full Contact | Knowledge & Insight | ✓ | | Full Contact is a sales tool that gathers a person's information using an identity graph, this provides a 360 view of a prospect to sales teams and updated contact information. | Receive a person's email and returning complementary information about the contact | https://digitalexchange.blueprism.com/en/entry/3439/solution/full-contact-api | | 1/14/2019 |
| Blue Prism | Docker VBO | | ✓ | | The Blue Prism Docker VBO allows for simple integrations with containerised applications running alongside the Blue Prism Runtime Resource. It allows Blue Prism to run and stop a local running container. Interactions with the running container can be facilitated via the Blue Prism 6.4 Web API which is independent of the Docker VBO. | Ability to create a container image, which is a containerized environment based on Linux or Windows | https://digitalexchange.blueprism.com/en/entry/3439/solution/docker-vbo | | 1/9/2019 |
| Accelrate Inc. | Managed ROC | | ✓ | | The Managed Robotic Operations Center (ROC) is designed for Enterprises with bots in production, looking to scale deployments while managing growing Bot Infrastructure | Scale your RPA Automation Deployments | https://digitalexchange.blueprism.com/en/entry/5910/solution/managed-roc | https://www.accelrate.com/contact/ | 1/9/2019 |
| Accelrate Inc. | RPA90X | | ✓ | | Proven, tried, and implemented 90-Day RPA Automation Accelerator Program! | Guaranteed way to achieve real results with accelerated timelines on automation initiatives | https://digitalexchange.blueprism.com/en/entry/5910/solution/rpa90x | https://www.accelrate.com/contact/ | 1/8/2019 |

| | | | | | | | | | |
|-------------------|---------------------------------|---------------------|---|-------------|---|--|---|---|------------|
| BOT AI ML Pvt Ltd | BOT AI ML DocuBOT | Collaboration | ✓ | | DocuBot is a self-learning, Intelligent, Document Parsing Software used to identify documents and extract meaningful information with greater accuracy, reducing the need for manual checks. Transform your unstructured data like KYC Document, Invoices, Balance Sheets, Bank Statements, Deposit Slips, Enrollment Forms, and many more into structured information, while the BOT automates your document workflow. | Self trains to auto-extract relevant information from scanned images/ PDF documents | https://digitalexchange.blueprism.com/uk/entry/7143/solution/the-digital-workforce | https://botai.ml.com/documentbot.php | 1/3/2019 |
| TrustPortal | End-to-End Digital Services | Collaboration | ✓ | TAP Premier | Become a Fully-Digital Organisation | Digitise 100% of your products or services | https://digitalexchange.blueprism.com/uk/entry/5329/solution/about-end-to-end-digital-services | https://www.trustportal.org/contact | 12/19/2018 |
| TrustPortal | Enhanced Attended Robotics | Collaboration | ✓ | TAP Premier | Transform the Front-Office with TrustPortal and Blue Prism | 2 to 3 times more productivity than traditional RDA. | https://digitalexchange.blueprism.com/uk/entry/5329/solution/about-enhanced-attended-robotics | https://www.trustportal.org/contact | 12/19/2018 |
| TrustPortal | Human-Robot Collaboration | Collaboration | ✓ | TAP Premier | Automate more through Human and Robot Collaboration | Human/Robot Interactions: Users can start robot processes and robots can get human help where necessary. | https://digitalexchange.blueprism.com/uk/entry/5329/solution/about-human-robot-collaboration | https://www.trustportal.org/contact | 12/19/2018 |
| TrustPortal | Multi-Channel Digitisation | Collaboration | ✓ | TAP Premier | Introduce Digital ... for everything! | 70-90% of human effort can be removed through digitisation | https://digitalexchange.blueprism.com/uk/entry/5329/solution/about-multi-channel-digitisation | https://www.trustportal.org/contact | 12/19/2018 |
| Blue Prism | Fixer Currency Conversion Skill | Knowledge & Insight | ✓ | | The Fixer Currency Exchange Skill provides the ability to convert currencies and get conversion rates. You can perform current conversion functions, historical conversions using a specified date, review historical dates, receive the latest rates, as well as review a multitude of supported currencies. | Converts a single value from one currency to another and can be converted from a specified date. The conversion rate used will have been update more recently depending on your subscription with Fixer. | https://digitalexchange.blueprism.com/uk/entry/3439/solution/fixer-currency-conversion-skill | | 12/14/2018 |
| Blue Prism | Distance Matrix API Google Maps | | ✓ | | The Google Maps Distance Matrix API and VBO allows users to easily call the Google API from within a Blue Prism Process and return the response data in an easy-to-use format. | Has separate action allowing users to specify locations either as addresses or latitude/longitude coordinate pairs | https://digitalexchange.blueprism.com/uk/entry/3439/solution/google-maps-distance-matrix-api-and | | 12/12/2018 |
| Blue Prism | Time Zone API Google Maps | | ✓ | | The Google Maps Time Zone API and VBO allows users to easily call the API from within a Blue Prism Process and return the response data in an easy-to-use format. | Allows input of datetimes instead of the Unix time required by the API | https://digitalexchange.blueprism.com/uk/entry/3439/solution/google-maps-time-zone-api-google-maps | | 12/12/2018 |

| | | | | | | | | | |
|----------------------------|-------------------------------------|-----------------------|---|---------------|--|---|---|---|------------|
| DX Community Developed | XE Currency Converter | Planning & Sequencing | ✓ | | Easily query the world's leading online currency conversion service | Realtime currency conversion | https://digitalexchange.blueprism.com/6e/entry/2439/solution/xecurrency-converter | | 12/10/2018 |
| HCL Technologies Ltd. | Exacto-Smart Extraction Application | Visual Perception | ✓ | | Exacto-Smart Extraction Application | End to End automation of data extraction starting from reading data from document to indexing those details in the workflow tool. | https://digitalexchange.blueprism.com/6e/entry/1745/solution/exacto-smart-extraction-application | https://www.hcltech.com/brochures/ExactoSmart | 12/5/2018 |
| RMR Technology Solutions | Login to SAP | Planning & Sequencing | ✓ | | Login using SAP as ERP | Integrated SAP AG with BluePrism | https://digitalexchange.blueprism.com/6e/entry/2714/solution/About-login-to-sap | https://rmrconsultants.com/psa/bsa/bsacontact | 12/5/2018 |
| TimelinePI | Accelerated Process Discovery | Planning & Sequencing | ✓ | TAP Affiliate | As demand and expectations skyrocket, RPA vendors and adopters alike are finding their initiatives unintentionally and often unnecessarily gated by the time and effort required by the pre-RPA process discovery and benchmarking of the as-is state. | Delivers a single comprehensive end-to-end view of actual process execution saving time and money in pre-implementation | https://digitalexchange.blueprism.com/6e/entry/2439/solution/accelerated-process-discovery | https://timelinedpi.com/partner/blueprism/ | 12/4/2018 |
| Digital Processing Systems | Adding Images into MS Word Document | Problem Solving | ✓ | | DPS Kuwait has developed this asset to add images directly in Word document through VBO without the need of opening and automating Word Document Application. | Automate Adding Image to Word Document | https://digitalexchange.blueprism.com/6e/entry/4915/solution/adding-images-into-ms-word-document | http://www.dpskw.com | 11/29/2018 |
| Blue Prism | Skill for Slack Messaging | Collaboration | ✓ | | The skill for Slack Messaging can be used to send messages from a digital worker user to channels and other users on Slack. Messages can be richly formatted, and files can be uploaded as well. | Allow a Blue Prism® Process or Object to post formatted messages and files to Slack conversations | https://digitalexchange.blueprism.com/6e/entry/3439/solution/Slack-messaging | | 11/26/2018 |
| DX Community Developed | Remote Desktop Services -Blue Prism | | ✓ | | Blue Prism is commonly installed and run on a virtualised infrastructure with virtual desktop images being used for Blue Prism Runtime Resources, and this remains the recommended deployment approach. However for users with specific IT infrastructure requirements, it may be desirable to deploy Blue Prism on a Remote Desktop Services (RDS) environment. | Using RDS to host Blue Prism can dramatically increase the number of virtual workers which can be deployed per server | https://digitalexchange.blueprism.com/6e/entry/3439/solution/remotedesktop-services-blueprism | | 11/20/2018 |
| Blue Prism | Holiday API Skill | Planning & Sequencing | ✓ | | The Holiday API Skill allows a Blue Prism Process or Object to check if there are any holidays that exist on a given date for a particular country. This can be useful for scheduling and other activities to ensure that dates don't conflict with known holidays. | Check if holidays exist on a given date in a particular country | https://digitalexchange.blueprism.com/6e/entry/3439/solution/holiday-api-skill | | 11/19/2018 |

| | | | | | | | | | |
|-------------------|------------------------------------|-----------------------|---|---------------|--|---|---|---|------------|
| INVOKE | Robotics as a Service | | ✓ | | Robotics as a Service (RaaS) delivers Blue Prism in the Cloud just for you: Your secure and optimized RPA infrastructure in the Cloud Start quickly and scale smartlyControl your infrastructure cost | An optimized infrastructure for RPA | https://digitalexchange.blueprism.com/entry/42185/solution/robotics-as-a-service | https://www.invokeinc.com | 11/14/2018 |
| Digital Workforce | Date and Time Manipulation VBO | Problem Solving | ✓ | | Working in increasingly global environment leads to working with different date and time formats - our VBO aims to remove the trouble completely! | With the asset developer can more extensively work with different time formats and timezones. | https://digitalexchange.blueprism.com/entry/3686/solution/date-and-time-manipulation-vbo | https://digitalworkforce.eu/ | 11/13/2018 |
| WonderBotz | InvoiceBotz with ABBYY Integration | | ✓ | | InvoiceBotz is a RPA solution designed to take the headache out of mass invoice processing and eliminate manual keying. With the help of RPA, robots receive invoices, extract and validate data, and load it to the AP system with a PDF copy of the invoice. | Eliminate human error and take the headache out of processing multiple invoice formats from vendors | https://digitalexchange.blueprism.com/entry/3594/solution/invoicebotz | https://www.wonderbotz.com/solutions | 11/13/2018 |
| Digital Workforce | RPA Project Management | Planning & Sequencing | ✓ | | RPA projects usually last 1-2 months. But if the tasks prior to the development phase have not been done accordingly, the projects can take six months or even longer. | Successful RPA projects delivered on time | https://digitalexchange.blueprism.com/entry/3686/solution/2800-rpa-project-management | https://www.dwfacademy.com | 11/13/2018 |
| Loop AI Labs | Loop AI Labs Cognitive Computing | Learning | ✓ | TAP Affiliate | Adds language-independent unsupervised learning and reasoning capabilities to the Blue Prism RPA platform. The self-learning cognitive technology allows for extremely fast deployment on-premises in a matter of days rather than months. | Unlock new, unique human language and workflow data and add full enterprise knowledge to digitized processes. | https://digitalexchange.blueprism.com/entry/3670/solution/loopai-cognitive-learning | https://www.loopai.com | 11/12/2018 |
| Digital Workforce | Screen Capture Tool | Problem Solving | ✓ | | With Screen Capture Tool you can easily save what's on screen during the process flow. | Easily take capture of what is currently on the monitor and print it to a file | https://digitalexchange.blueprism.com/entry/3686/solution/2800-screen-capture-tool | https://digitalworkforce.eu/ | 11/12/2018 |
| Persistent | Smart Email Parser | Knowledge & Insight | ✓ | | Persistent's smart email parser leverages Natural Language Processing and intents to process the structured and un-structured emails and provides the business relevant information and the context based on the configurations. | Leverages Natural Language Processing and intents to process the structured and un-structured emails | https://digitalexchange.blueprism.com/entry/3482/solution/smart-email-parser | https://www.persistent.com/new-and-emerging-tech/offering/intelligent-business-automation/ | 11/12/2018 |
| identii | Overlay+ by identii | Problem Solving | ✓ | TAP Affiliate | Overlay+ and Blue Prism combine to provide intelligent sharing of verified information with permissioned counterparties. | Automated collection and secure exchange of information and documentation | https://digitalexchange.blueprism.com/entry/6794/solution/overlay-by-identii | https://identii.com/contact/ | 11/11/2018 |

|--------------------|-------------------------------------|-----------------------|---|---------------|--|---|---|---|-----------|
| Blue Prism | Language Translate Skill IBM Watson | Knowledge & Insight | ✓ | | The Language Translator API skill brings the latest achievements in Deep Learning to your Blue Prism process. Via a simple drag and drop interface, you can now use the latest achievements in Neural Machine Translation to achieve a much higher rate of Automation. This skill is one in a set of many which has been integrated with IBM Watson's Cloud Platform. | Use advancements in Neural-Machine-Learning to state-of-the-art results in Language Translation | https://digitalexchange.blueprism.com/entry/3439/solution/ibm-watson-language-translation | | 11/9/2018 |
| Blue Prism | Language Understanding IBM Watson | Knowledge & Insight | ✓ | | The Natural Language Understanding (NLU) API skill brings state-of-the-art research and development in Deep Learning straight to your Blue Prism process. By using Blue Prism's intuitive drag and drop interface, you can now bring in the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is just one out of many which have been integrated with IBM Watson's Cloud Platform. | Use advancements in Deep Learning and Language Models to analyse textual information | https://digitalexchange.blueprism.com/entry/3439/solution/ibm-watson-language-understanding | | 11/9/2018 |
| Blue Prism | Visual Recognition Skill IBM Watson | Visual Perception | ✓ | | The Visual Recognition API skill brings state-of-the-art research and development in Deep Learning straight to your Blue Prism process. By using Blue Prism's intuitive drag and drop interface, you can now bring in the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is just one out of many which have been integrated with IBM Watson's Platform. | Uses Deep Learning to analyse images | https://digitalexchange.blueprism.com/entry/3439/solution/ibm-watson-visual-recognition | | 11/9/2018 |
| Celonis | Celonis Intelligent Business Cloud | Knowledge & Insight | ✓ | TAP Premier | Business Transformation realized by combining RPA and the Celonis Intelligent Business Cloud | Analyze and improve your as-is processes and search for automation potential | https://digitalexchange.blueprism.com/entry/3439/solution/ibm-watson-connective | https://www.celonis.com/intelligent-business-cloud/ | 11/5/2018 |
| MagicLamp Software | Datacap WTM | Problem Solving | ✓ | | The Datacap WTM Connector allows for Direct Integration to IBM Datacap | Ensure that your OCR Data is Accurate, Valid and Usable with Confidence by Robots Downstream | https://digitalexchange.blueprism.com/entry/3609/solution/datacap-wtm | https://www.magiclampsoftware.net | 11/5/2018 |
| Reveal Group | Address Validation Google Geocoding | Problem Solving | ✓ | | Validate, compare, and standardize your mailing addresses | Simple method for comparing addresses | https://digitalexchange.blueprism.com/entry/3398/solution/apollo-geocoding-address-validation | http://www.revealgroup.com | 11/2/2018 |
| Xeelo Ltd | Xeelo Complete GDPR Solution | Problem Solving | ✓ | TAP Affiliate | Solve all your GDPR and Data Privacy needs with a simple way to demonstrate full compliance that also lets you search all your existing systems for individual data records with BluePrism robots. | Complete GDPR Solution | https://digitalexchange.blueprism.com/entry/3520/solution/xeelo-complete-gdpr-solution | https://www.xeelo.com/gdpr/ | 11/2/2018 |
| Xeelo Ltd | Xeelo Masterdata Management | Planning & Sequencing | ✓ | TAP Affiliate | Manage all your Master Data across your entire enterprise from a single Golden Record maintained in Xeelo. Ensure full compliance with SOX and GDPR, including full audit trails of changes but importantly also who viewed each data record. | Manage Master Data | https://digitalexchange.blueprism.com/entry/3592/solution/xeelo-masterdata-management | https://www.xeelo.com/ | 11/2/2018 |

| DX Community Developed | OAuth 2.0 Blue Prism | | ✓ | | Provides the capability to authorize against a web service using OAuth 2.0. | Provides the capability to authorize against a web service using OAuth 2.0. | https://digitalexchange.blueprism.com/6e/entry/2439/solution/blue-prism-oauth-20 | | 11/1/2018 |
| DX Community Developed | REST Webservice Blue Prism | | ✓ | | Provides the capability to connect to REST based webservice APIs. | Provides the capability to connect to REST based webservice APIs | https://digitalexchange.blueprism.com/6e/entry/3439/solution/blue-prism-rest-webservice | | 11/1/2018 |
| DX Community Developed | Strings Utility Blue Prism | | ✓ | | This utility provides utility functions for manipulating text. | This utility provides utility functions for manipulating text. | https://digitalexchange.blueprism.com/6e/entry/3439/solution/blue-prism-strings-utility | | 11/1/2018 |
| WonderBotz | Account ReconBotz | | ✓ | | Account ReconBotz accelerates monthly close, auto-reconcile up to 95 percent of accounts | Integrate seamlessly with existing account reconciliation technologies (e.g. BlackLine or Trintech) | https://digitalexchange.blueprism.com/6e/entry/3194/solution/account-reconbotz | https://wonderbotz.com/solutions | 10/30/2018 |
| AVO Consulting | AVO.Regex | Knowledge & Insight | ✓ | | Regular Expression (Regex) Search Utility | Easy to Use | https://digitalexchange.blueprism.com/6e/entry/3493/solution/avoregex | https://www.aviconsulting.no/ | 10/30/2018 |
| Avanade | Intelligent Help Desk | Problem Solving | ✓ | | Our Intelligent Help Desk solution utilizes Avanade's expertise to integrate Microsoft's Cognitive services from the Azure cloud platform with Text analytics API and Robotic Process Automation software (RPA) using Blue Prism, the leading global RPA provider. | Intelligent Help Desk identifies the specific intent of each IT Helpdesk request received | https://digitalexchange.blueprism.com/6e/entry/3595/solution/intelligent-help-desk | https://www.avanade.com/en | 10/30/2018 |
| Blue Prism | Natural Language Skill Google Cloud | Knowledge & Insight | ✓ | | This Natural Language Processing (NLP) API skill brings state-of-the-art research and development in Deep Learning straight to your Blue Prism process. By using Blue Prism's intuitive drag and drop interface, you can now bring in the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is just one out of many which have been integrated with Google's Cloud Platform. | Use advancements in Deep Learning and Language Models to analyse textual information | https://digitalexchange.blueprism.com/6e/entry/3439/solution/google-natural-language-processing | | 10/29/2018 |
| Blue Prism | Text Analytics Skill Azure Cloud | Knowledge & Insight | ✓ | | The Text Analytics API skill brings the latest achievements in Deep Learning and Language Models to your Blue Prism process. Via a simple drag and drop interface, you can now use the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is one in a set of three which has been integrated with Azure. | Use advancements in Deep Learning and Language Models to analyse textual information | https://digitalexchange.blueprism.com/6e/entry/3439/solution/microsoft-text-analytics-2 | | 10/29/2018 |

| | | | | | | | | | |
|------------------------|-------------------------------------|---------------------|---|--|--|---|---|--|------------|
| Blue Prism | Translate Skill Google Cloud | Knowledge & Insight | ✓ | | The Cloud Translation API skill brings the latest achievements in Deep Learning to your Blue Prism process. Via a simple drag and drop interface, you can now use the latest achievements in Neural Machine Translation to achieve a much higher rate of Automation. This skill is one in a set of many which has been integrated with Google's Cloud Platform. | Use advancements in Neural-Machine-Learning to state of the art results in Language Translation | https://digitalexchange.blueprism.com/entry/3439/solution/google-translate | | 10/29/2018 |
| Blue Prism | Vision Skill Google Cloud | Visual Perception | ✓ | | The Vision API skill brings state-of-the-art research and development in Deep Learning straight to your Blue Prism process. By using Blue Prism's intuitive drag and drop interface, you can now bring in the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is just one out of many which have been integrated with Google's Cloud Platform. | Uses Deep Learning to analyse images | https://digitalexchange.blueprism.com/entry/3439/solution/google-vision | | 10/29/2018 |
| DX Community Developed | Calendars Utility Blue Prism | | ✓ | | This utility provides methods for interacting with a specified calendar | Provides capability to interface with calendars | https://digitalexchange.blueprism.com/entry/3439/solution/blue-prism-calendars-utility | | 10/26/2018 |
| DX Community Developed | Date & Time Manipulation Blue Prism | | ✓ | | This utility provides several functions for manipulating dates and times within an automation | Provides capability to manipulate dates and times | https://digitalexchange.blueprism.com/entry/3439/solution/date-and-time-manipulation | | 10/26/2018 |
| Blue Prism | Environment Blue Prism | | ✓ | | This utility provides interaction with the Blue Prism Environment, such as read screen resolution, determine the OS type, etc. | Provides interaction with Blue Prism Environment | https://digitalexchange.blueprism.com/entry/3439/solution/blue-prism-environment | | 10/26/2018 |
| DX Community Developed | File Management Utility Blue Prism | | ✓ | | This utility provides methods for interacting with a system | Provides capability for file management | https://digitalexchange.blueprism.com/entry/3439/solution/file-management-blue-prism-utility | | 10/26/2018 |
| DX Community Developed | HTTP Communication Utility | | ✓ | | This utility provides the capability to communicate with web services using the HTTP protocol | Provides capability to communicate with web services using the HTTP protocol | https://digitalexchange.blueprism.com/entry/3439/solution/http-communication-utility | | 10/26/2018 |
| DX Community Developed | OleDb Utility Blue Prism | | ✓ | | This utility provides methods for interacting with Object Linking and Embedding Database | Provides capability for OleDb | https://digitalexchange.blueprism.com/entry/3439/solution/blue-prism-oledb-utility | | 10/26/2018 |

| | | | | | | | | | |
|------------------------|-------------------------------------|---------------------|---|---------------|--|--|---|---|------------|
| DX Community Developed | POP3/SMTP Utility Blue Prism | | ✓ | | This utility provides capability to interact with POP3 and SMTP email protocols | This utility provides capability to interact with POP3 and SMTP email protocols | https://digitalexchange.blueprism.com/entry/3439/solution/blue-prism-pop3smtp-utility | | 10/26/2018 |
| DX Community Developed | SQL Server Utility Blue Prism | | ✓ | | This utility provides methods for interacting with SQL Server | Provides capability to interact with SQL Server | https://digitalexchange.blueprism.com/entry/3439/solution/blue-prism-sql-server-utility | | 10/26/2018 |
| DX Community Developed | Active Directory Utility Blue Prism | | ✓ | | This is a Business Object for interacting with Active Directory using the LDAP based API in .NET | Provides capability for Blue Prism to interact with Active Directory | https://digitalexchange.blueprism.com/entry/3439/solution/active-directory-blue-prism-utility | | 10/25/2018 |
| DX Community Developed | Collection Manipulation Blue Prism | | ✓ | | Utility that provides several functions for manipulating collections | Provides capability to manipulate collections | https://digitalexchange.blueprism.com/entry/3439/solution/blue-prism-collection-manipulation | | 10/25/2018 |
| REINFER LTD | Communications Analytics Automation | Visual Perception | ✓ | TAP Affiliate | Make communications (email, chat, calls) structured, actionable data for analytics and automation. | Convert electronic communications data (emails, calls, chats, notes etc) into structured actionable data with state of the art ML. | https://digitalexchange.blueprism.com/entry/3410/solution/reinfer-cognitive-intent-engine | https://reinfer.io | 10/25/2018 |
| DX Community Developed | MS Outlook Blue Prism Utility | | ✓ | | This is a MS Outlook Business Object - Utility that provides the capability for Blue Prism to interact with MS Outlook (up to the Office 2016 variant). | Provides capability for Blue Prism to interact with MS Outlook (up to Office 2016 variant). | https://digitalexchange.blueprism.com/entry/3439/solution/ms-outlookblue-prism-utility | | 10/25/2018 |
| Blue Prism | Translate Skill Azure Cloud | Knowledge & Insight | ✓ | | The Translate API skill brings the latest achievements in Deep Learning to your Blue Prism process. Via a simple drag and drop interface, you can now use the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is one in a set of three which has been integrated with Azure. | Use advancements in Neural-Machine-Learning to state of the art results in Language Translation | https://digitalexchange.blueprism.com/entry/3439/solution/microsoft-translate-skill | | 10/25/2018 |
| Blue Prism | Vision Skill Azure Cloud | Visual Perception | ✓ | | The Vision API skill brings the latest achievements in Deep Learning to your Blue Prism process. Via a simple drag and drop interface, you can now use the latest achievements in Machine Learning to achieve a much higher rate of Automation. This skill is one in a set of three which has been integrated with Azure. | Uses Deep Learning to analyse images | https://digitalexchange.blueprism.com/entry/3439/solution/microsoft-vision-skill | | 10/25/2018 |
